Great Minds Albert Einstein

Great Minds: Albert Einstein by Lydia Lukidis You would probably recognize Albert Einstein from his photos. Yep, he was the guy with the crazy hair! But he also had some great ideas. He was more than just a scientist. He was a genius who changed our lives. He made some of science’s biggest discoveries. He also developed some important theories.

Great Minds: Albert Einstein - Super Teacher Worksheets

Albert Einstein (March 14, 1879 - April 18, 1955) was a theoretical physicist, with considerable applied mathematical abilities, who is widely regarded as the most important scientist of the 20th century. He proposed the theory of relativity and also made major contributions to the development of quantum mechanics, statistical mechanics and cosmology.

Albert Einstein --Great Minds, Great Thinkers

ALBERT EINSTEIN was born in Ulm, Germany, on March 14, 1879.An indifferent student, Einstein gave little hint of the great scientist he would become: he found school merely monotonous; indeed, one of his teachers at the Polytechnic Institute of Zurich, Switzerland, where Einstein enrolled in 1896, later described him as "a lazy fellow, [who] never cared for mathematics."

Great Minds Albert Einstein Worksheets - Learny Kids

Einstein figured out that the geometrical properties of space are determined by matter. For example, our massive Sun even bends light from distant stars. This means that mechanics defined by Galileo and Newton needed a profound upgrade: Euclidean geometry cannot represent reality (space + time from different reference-bodies).
