The Marine Science I PASS is divided into 18 units of study that correspond to the science strands. The student book focuses on readings and activities that help students meet benchmark requirements as identified in the course description. It is suggested that expectations for student performance be shared with the students before instruction begins. Each unit in the Teacher's Guide includes the following components:

Marine Science I - homeschoolcollegesa.com

Marine science is so broad that it would require a lot of space to outline every possible career path. Many of the same components that are studied on land also are studied in the water. Marine biology, marine chemistry, and marine physics are three of the disciplines that fall into the category of oceanography. Within each of these disciplines there are numerous sub-categories in which a professional is likely to specialize.

What is Marine Science? (with pictures)

PP 1. The Marine Environment: There is one ocean that is divided into several parts Pacific- thought to be peaceful, fairly cold o Large, average depth is 4,000 meters o Covers half of the ocean o 50.1 % of ocean surface area Atlantic- o Quarter of the ocean o 3,800 meters of average depth o 26.0% of ocean surface area Indian- o 20% of the ocean o Same depth as the Atlantic o 20.5% of ocean surface area Artic- o 3.4% of ocean surface area o 1,000 meters o More oil deposits Antarctic ocean ...
