Riley also detects a transformation in the relationship between societies and their doctors at the end of the nineteenth century. During most of the century, the societies were in a strong position to negotiate with doctors; by the end of the century, the societies had undergone a loss of nerve in their

In her major new book, Chandra Mukerji highlights the connections between the two seemingly disparate activities of engineering and garden design. She shows how, at Versailles in particular, the royal park showcased French skills in using nature and art to design a distinctively French landscape and create a naturalized political
