clinical examples of the consequences of malfunctioning biochemical pathways. The book introduces the chemistry and structure of cells and proceeds with discussion on proteins, enzymes, membrane structure and function, bioenergetics, metabolism of carbohydrates, lipids, amino acids and nucleic acids.

Richard A Paselk Convincing preclinical medical students of the importance of a sound grounding in basic biochemistry for understanding human disease and clinical medicine is often very difficult with the currently available biochemical textbooks. 'Textbook of Biochemistry with Clinical Correlations' goes a long way to making good the deficiency.
