The 4-stroke engine is also much quieter, a 2-stroke engine is significantly louder and has a distinctive, high-pitched “buzzing” sound. Because 2-stroke engines are designed to run at a higher RPM, they also tend to wear out faster; a 4-stroke engine is generally more durable. That being said, 2-stroke engines are more powerful. Two-stroke engines are a much simpler design, making them easier to fix. They do not have valves, but rather ports.
